Empowering Marketing And Affiliate Industries Through Financial Excellence

What is Genome?

genome

Genome is a Lithuania-based Electronic Money Institution. We offer a wide range of financial services to companies and merchants within eCommerce, marketing, affiliate marketing, iGaming, transportation, insurance, utility, travel industries, and more.

Operating entirely online, Genome was created by experienced professionals from the banking and fintech industries who know what a business needs to grow and succeed. Our platform is a one-stop shop for your needs, from multi-currency accounts, transfers, and Visa cards to merchant accounts and payment pages.

How Genome supports marketing and affiliate marketing industries

genome

Quick online onboarding with minimum documents required

Issuance of multiple virtual cards for media buying

Simplified financial management tools

Advanced expense tracking and reports for all business operations

Multi-currency accounts for all your needs

genome

Inside Genome's business account, you can have multiple accounts in different currencies! Expand your reach globally - make transfers in a currency of your choice and settle funds to your preferred account!

You can add up to five accounts in each currency: EUR, USD, and GBP in seconds! Efficiently handle multiple accounts online at any time - from Genome's dashboard.

Get as many virtual cards for ads as you require

genome

Genome offers virtual Visa cards that can be used for various corporate expenses, including effective media buying. Make your advertising expenses as secure and convenient as possible - track all the transactions inside Genome and limit spending on different cards.

You can order hundreds of cards for ads without worrying that they will get blocked. Get a virtual card in just a minute: all you have to do is confirm your information, and the virtual card will be available to use right away!

A dedicated IBAN account for B2B payments

genome

Streamline business-to-business transactions with your dedicated IBAN account from Genome. Use SEPA transfers or our instant internal transfers for payments between Genome users.

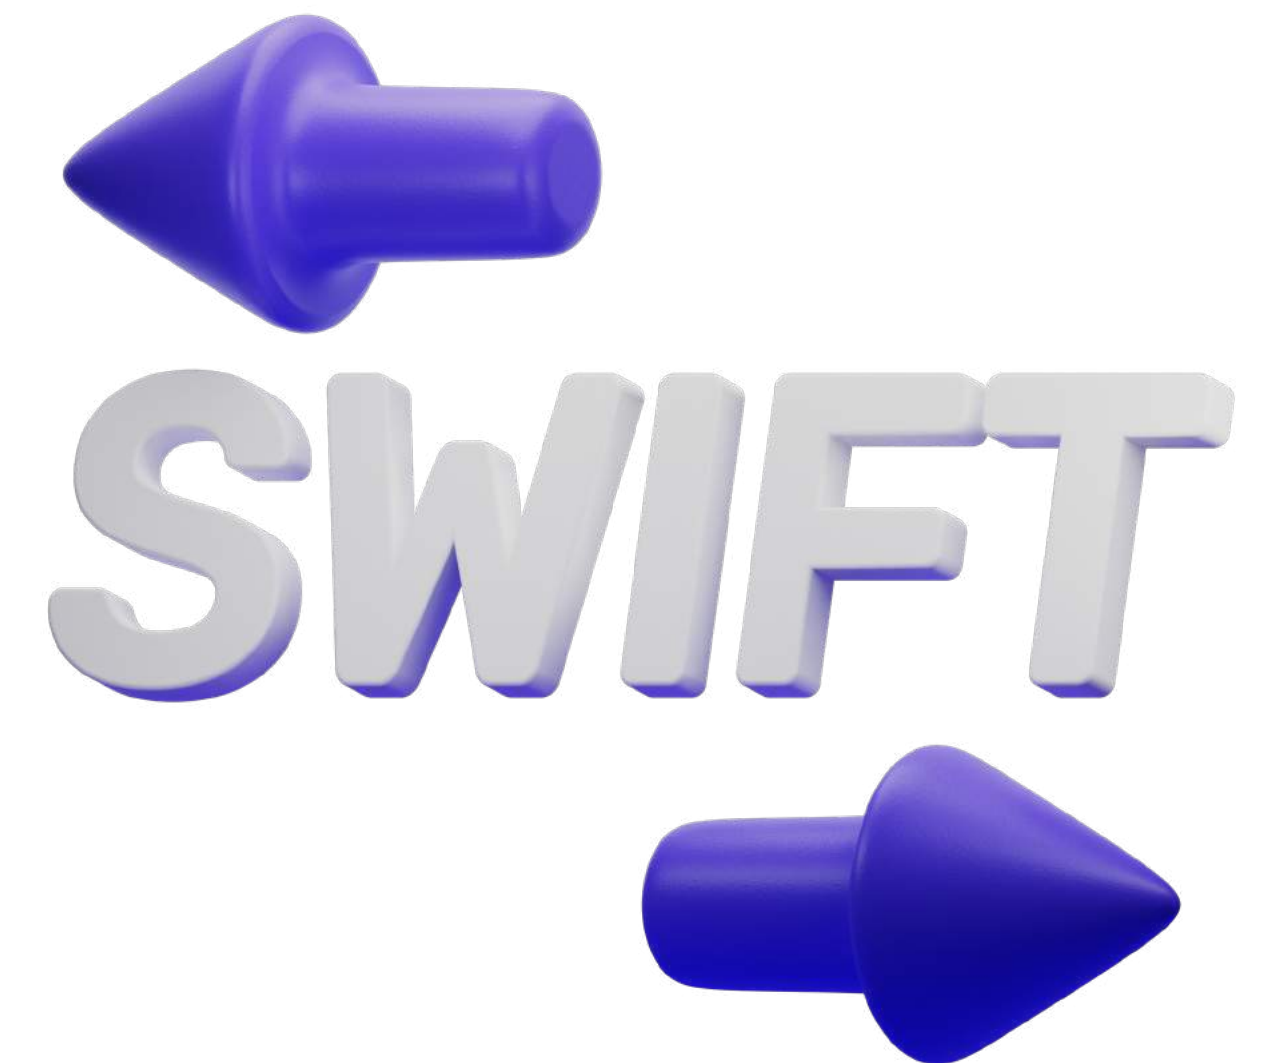

Make faster and easier payments to your business partners, contractors, employees, and more.

SWIFT payments are coming soon

genome

No global payment experience can be complete without SWIFT transfers, which are to be implemented inside Genome very soon. With them, you can facilitate international business transactions and enrich your global payment capabilities.

Personalized support with a dedicated account manager

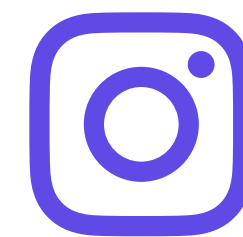

genome

Our business clients gain access to a dedicated account manager. The manager will provide professional assistance in any financial operation, question, or need a company may have.

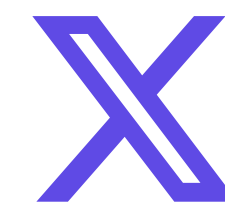

Communicate with your manager and Genome's support team via any channel you find the most convenient - from emails to social media messengers:

FB Messenger

Instagram

Twitter

Telegram

WhatsApp

Live Chat

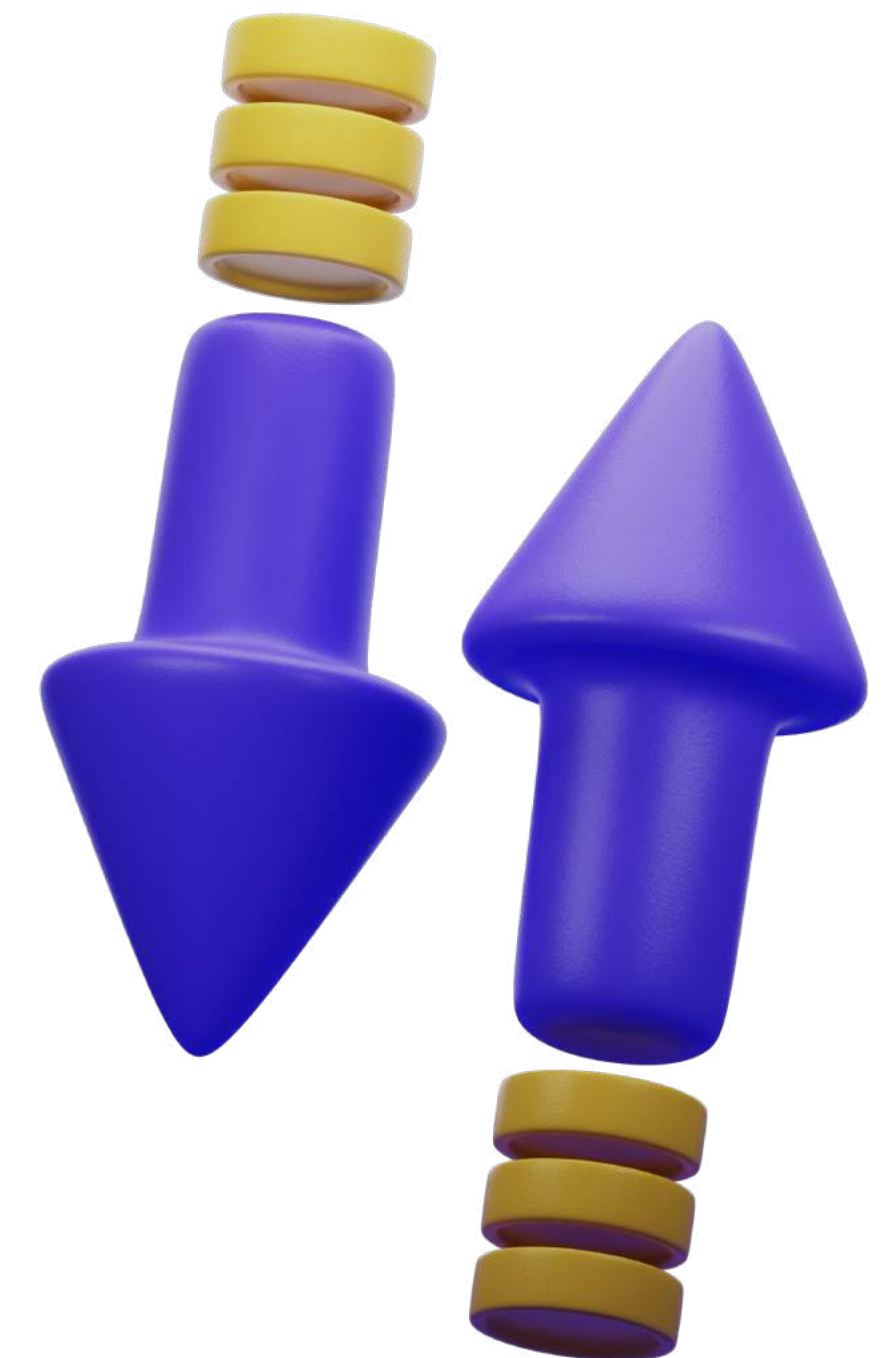

Fully automated API for mass payouts

genome

Genome's Payout API allows for frictionless payments even if a large amount of transactions are sent. Make mass payments while the API enhances their efficiency and accuracy.

The API can be seamlessly integrated with various accounting systems, allowing for direct financial activities without logging into the account.

Genome provides tailored solutions for your company

genome

Genome was established by seasoned professionals from the financial industry who know firsthand all businesses' financial pains and requirements. We created all our services and features based on the most relevant demands from companies at that time, tools that they couldn't find at traditional banks.

We have in-house product-build capabilities and are ready to provide customized financial solutions for your unique needs.

Expense tracking made easy

genome

Every transfer and payment you make, as well as all your merchant transactions, are recorded and kept on your Genome dashboard. We provide robust reporting tools with customizable filters to better help clients with financial management and transaction tracking.

Efficiently monitor and control expenses at all times!

Genome makes the difference

Genome helps marketing and affiliate marketing companies By providing the financial tools and support needed for seamless operations, including multi-currency accounts, virtual cards for media buying, dedicated IBANs, SWIFT payments, and more.

With us, such companies can benefit from:

**Simplified and quick
financial operations**

**Streamlined
international payments**

**Multi-currency accounts
and virtual cards for ads**

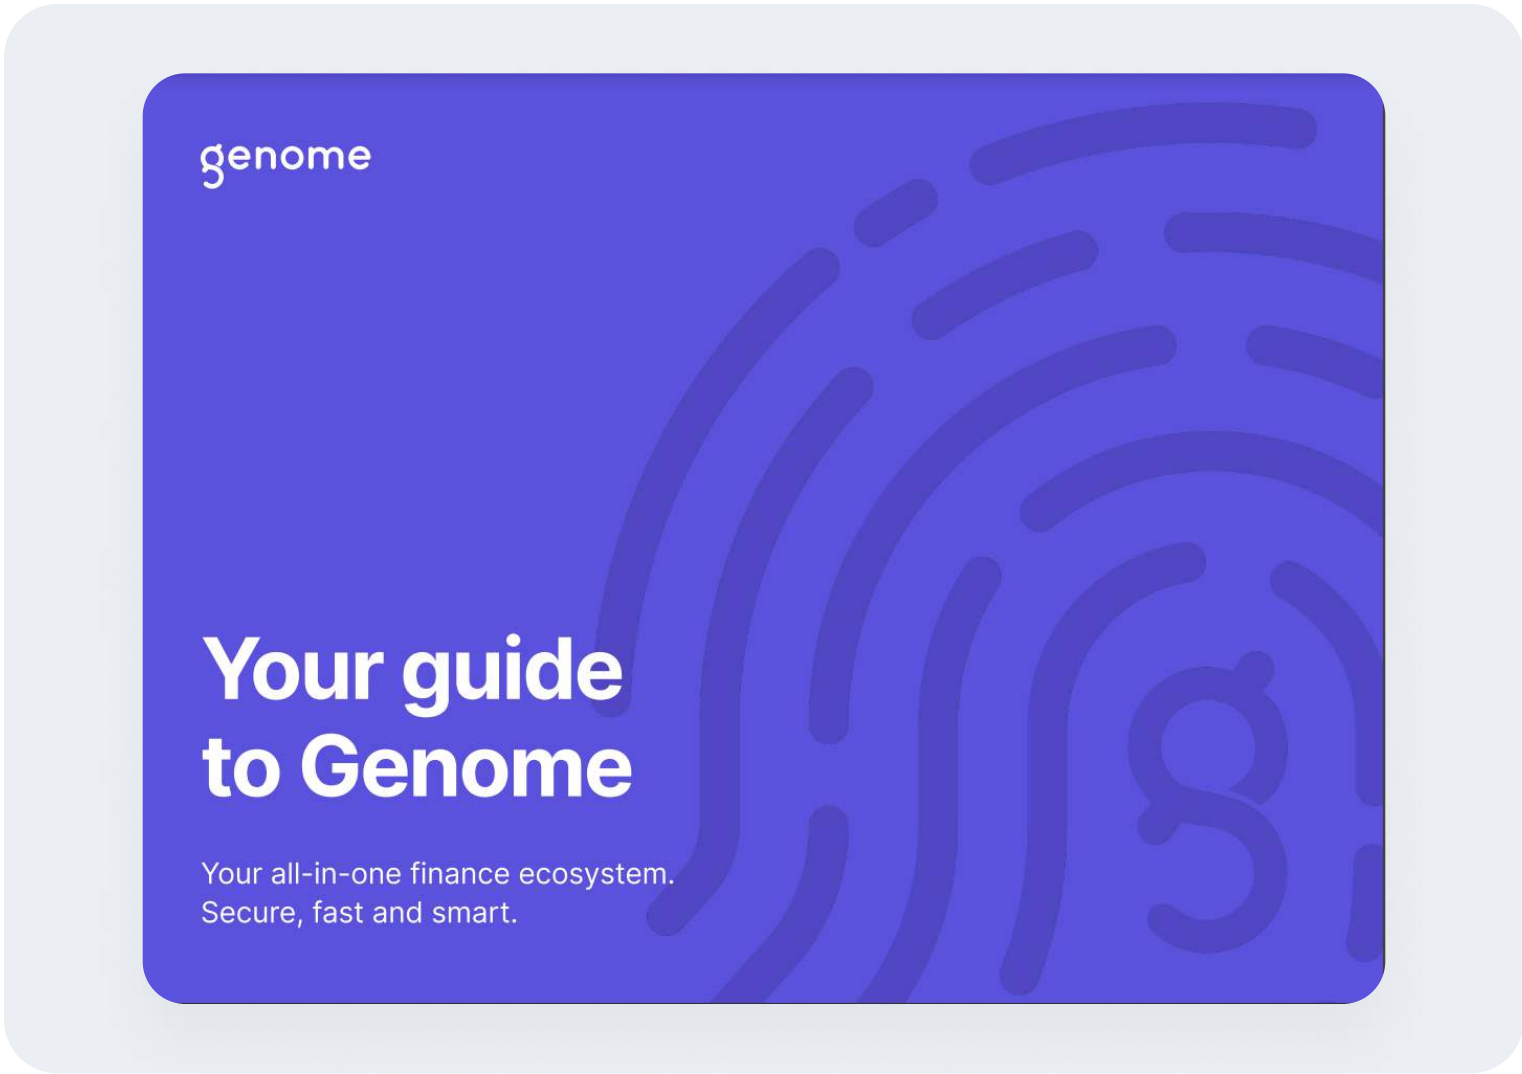

**Enhanced control
over expenses**
