Empowering Operators: Unleash The Potential With Genome's Financial Services

What is Genome?

genome

Genome is a Lithuania-based Electronic Money Institution. We offer a wide range of financial services to companies and merchants within eCommerce, iGaming, transportation, insurance, utility, events, travel industries, and more.

Operating entirely online, Genome was created by experienced professionals from the banking and fintech industries who know what a business needs to grow and succeed. Our platform is a one-stop shop for companies, from multi-currency accounts, transfers, and Visa cards to merchant accounts and payment pages.

Why choose Genome for your financial needs?

genome

Genome is a trusted EMI in the industry. We are licensed and supervised by the Bank of Lithuania and are compliant with PCI DSS, PSD2, and other strict regulations that traditional banks abide by.

Our key services

genome

Batch payouts for B2C customers with a wide coverage of the SEPA territories

Dedicated EUR IBAN accounts for businesses with all the features needed to run a company

Multi-currency business accounts: up to 5 accounts in each currency - EUR, GBP, USD

Multi-functional API integrations for seamless transactions and easy-to-schedule mass payouts

Genome offers seamless integration with leading platforms

genome

Genome constantly improves its tools and services thanks to integrations with leading companies in the industry. Among these are integrations with

START2PAY 

gamingtec

ANAKATECH
game changer

Payment.iQ

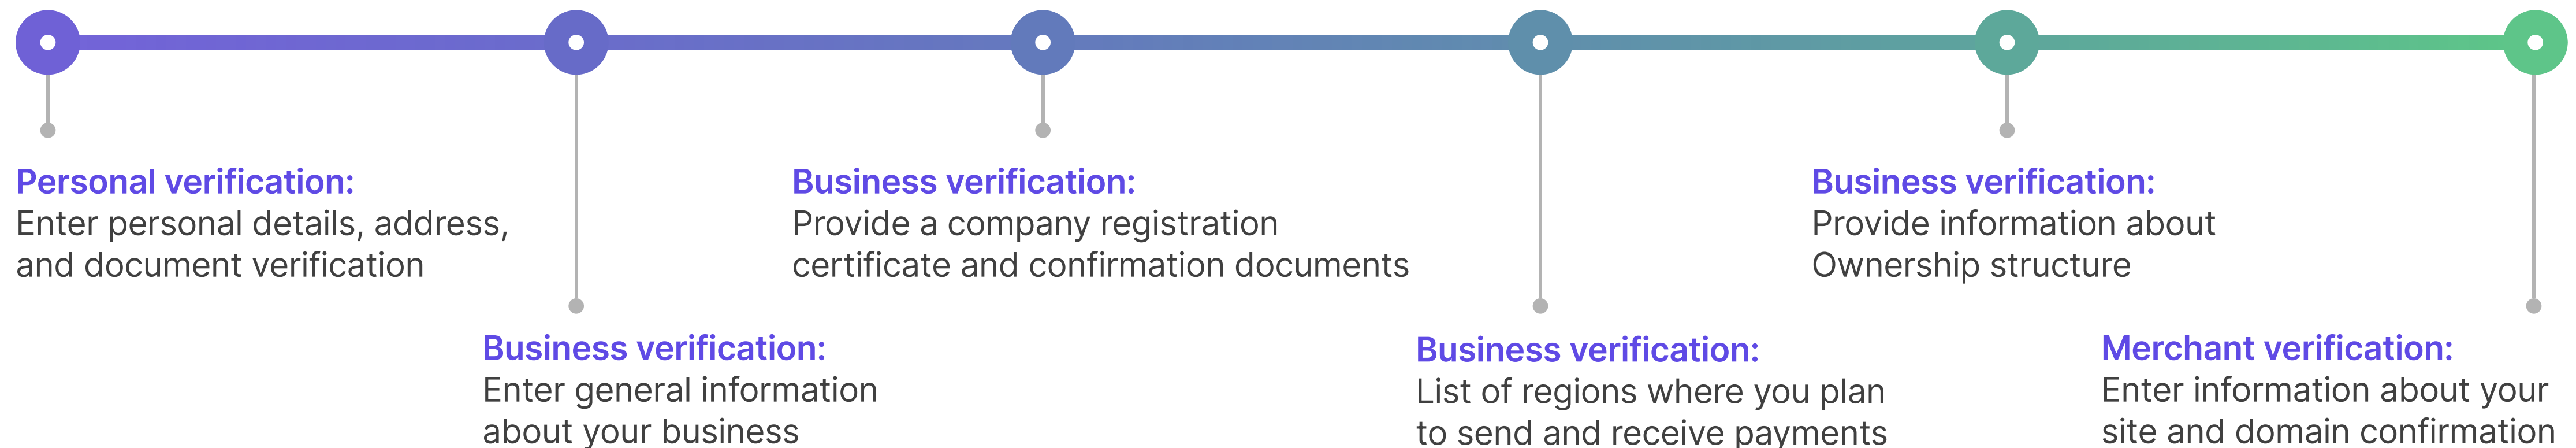

Enjoy quick and trouble-free account opening

genome

Genome's team is experienced in working with high-risk businesses, building services and features around their needs

The onboarding process for business and merchant accounts occurs entirely online: you only need to fill out some information and attach the necessary documentation. Start an account from the comfort of your house or office - at any time of day you want!

Get a dedicated account manager

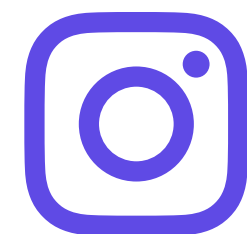

genome

Our business clients gain access to a dedicated account manager. The manager will provide professional assistance in any financial operation, question, or need a company may have.

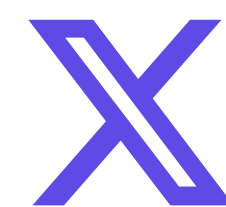

Communicate with your manager and Genome's support team via any channel you find the most convenient - from emails to social media messengers:

FB Messenger

Instagram

Twitter

Telegram

WhatsApp

Live Chat

Benefit from free additional EUR IBAN accounts

genome

- You don't have to limit yourself to just one business account. You can start up to 5 additional EUR IBAN accounts for free!
- The additional accounts will be available in seconds after adding them to the main dashboard.
- Be flexible - use the accounts for different purposes: for corporate expenses, storing money, as settlement accounts, etc.

Genome provides tailored solutions for your company

genome

Genome was established by seasoned professionals from the financial industry who know firsthand all businesses' financial pains and requirements. We created all our services and features based on the most relevant demands from companies at that time, tools that they couldn't find at traditional banks.

We have in-house product-build capabilities and are ready to provide customized financial solutions for your unique needs.

Involve and empower your employees

genome

You can securely manage a business account together with your employees. Grant the staff access to the account via our shared account feature and assign them different roles to divide financial responsibilities.

Inside Genome, you can also issue as many virtual and physical corporate Visa cards as you need. Use these yourself or give them to employees for corporate and marketing expenses, media buying, etc.

Sign up to Genome in just a few clicks!
